for Registrar General, India.

NATIONAL SAVINGS CERTIFICATES

Are now available in three different series, maturing after 5, 7 and 12 years. The certificates yield 3%, 3½% and 4-1/6% simple interest respectively, at maturity. The 12 years certificates increase your money by 50% but if necessary can be encashed after 18 months (Rs. 5/- certificates after 12 months). The 5 and 7 years certificates can be encashed at any time.

National Savings Certificates are obtainable in denominations of 5, 10, 50, 100, 500, 1,000 and 5,000 and you can invest upto Rs. 25,000 in them (inclusive of any Post Office cash certificates held).

Full particulars obtainable from all post offices, District Organisers of the Small-Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers or the National Savings Commissioner, Simla.

TODAY'S SAFEST AND MOST PROFITABLE INVESTMENT

* In cases of towns where there has been an abnormal movement of population, it is likely that the population estimates may not be sufficiently reliable for calculating the birth and death rates.

† Figures not available.

Explanation of symbols used:—B.—Births; B.R.—Birth rate; C.—Cholera; S.—Smallpox; P.—Plague; F.—Fevers; D.D.—Dysentery and Diarrhoea; R.D.—Respiratory diseases; M.D.—Maternal deaths; D.R.—Death rate; I.D.—Infantile deaths (included in total deaths).

REMARKS

The figures of births and deaths shown in this statement for the week ending the 18th November 1950, relate to 86 towns with an estimated population of 10,578 thousands. The total number of towns is 233 and their population is 28,421 thousands. Thus 37% of the total number of towns representing 41% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 9,334 and 3,530 representing birth and death rates of 45.9 and 17.4 per thousand of population respectively.

(A) States (Parts A and C).—The data here relate to 58 towns with an estimated population of 7,414 thousands. Information about Assam, Bihar, Bombay, Madhya Pradesh, Madras, and West Bengal could not be included. The total number of towns is 201 and their population is 24,668 thousands. Thus 29% of the total number of towns representing 30% of the total population is covered. The numbers of births and deaths recorded

in these towns were 7,063 and 2,532 representing birth and death rates of 49.5 and 17.8 per thousand of population respectively. The table at the end gives the position by states.

No town recorded a high death rate of 50 or over per thousand of population.

(B) States (Part B).—The data here relate to 28 towns with an estimated population of 3,164 thousands. The total number of towns is 32 and their population is 3,753 thousands. Thus 85% of the total number of towns representing 84% of the total population is covered. The numbers of births and deaths recorded in these towns were 2,271 and 998 representing birth and death rates of 37.3 and 16.4 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
